

COMPUTER APPLICATION PROJECT

HOSPITAL MANAGEMENT (USING HTML, CSS)

PROJECT SUBMITTED BY

NAME: SUDIKSHA ROY KANUNGOE

CLASS: **X**, SECTION: **C**, ROLL NO: **59**,
ADMISSION NO: **7871**

DECEMBER 24, 2019

DAV PUBLIC SCHOOL
BISTUPUR, JAMSHEDPUR

CERTIFICATE BY GUIDE

This is to certify that Ms. **SUDIKSHA ROY KANUNGOE**, Class: X, Section: C, Roll No: 59, Admission No: 7871 of DAV PUBLIC SCHOOL, Bistupur, Jamshedpur has prepared this project report on **HOSPITAL MANAGEMENT**, using HTML under my direct supervision.

The report is truly authentic and not a copy from any source.

Guide's Name: SUPRIYA ROY KANUNGOE

Qualification: MCA

Date: 13-12-2019

ACKNOWLEDGEMENT

I, SUDIKSHA ROY KANUNGOE have prepared this Project Report for the purpose of my own effort.

My heartiest thanks goes to Central Board of Secondary Education (CBSE) to give an opportunity to learn computer science in our syllabus, as it is an important part of education nowadays.

I also owe to our school Principal madam, Ms. Pragya Singh for maintaining strict discipline and allowing us to do computer practical classes with all necessary equipment. Beside this, I express my gratitude to our Class Teacher, Ms. Nilofer Baig and all other teachers of our school.

In fine, I do hereby acknowledge the receipt of necessary guidance prolific instruction given by our respected computer teacher, Mr. Ravi Kumar Mandal for which this project could be brought out to such a grand getup with all required points as incorporated therein as lucidly as possible.

1. General introduction to HOSPITAL MANAGEMENT SYSTEM

Hospital Management System is online, which is used to manage the hospital. Hospitals play a major role in a human's life. There is no human on earth that is not going to be suffering from any sort of sickness.

HOW CAN I HELP? There are several other reasons that a person needs medical assistance. And, to provide the best medical assistance, the management of the hospital must be disciplined, well versed in its service providing techniques.

Objective:- Main aim is to minimize the paper work of the hospital.

- (i) **Computerization:-** All the details regarding hospital will be computerized.
- (ii) **No redundancy:-** For every test that is conducted of the patients, an automated report will be generated and will be available to the patients and to his/ her concerned doctor uniformly.
- (iii) **Keep the records:-** It will be easier task for the management to keep the record of the patients for historical purpose.
- (iv) **Appointment:-** It will be easier for both the doctors and the patients to have the appointments. It is just two clicks away.

The main purpose of the project is

(A) To showcase a model hospital in INDIA to the outer world by publishing its state-of-the art services, facilities and panel of eminent doctors in internet.

(B) Apart from that the system also provides facility to its patients to make an on-line appointment:-

- (i) to consult the available doctor from the distinguished doctors' panel and
- (ii) to undergo different medical diagnosis and pathological test.

2. Project Requirements

Hardware Requirements		
<i>Processor</i>	<i>RAM</i>	<i>Disk Space</i>
Pentium II, Pentium III, Pentium IV or higher	64 Mb or Higher	130 Mb
Software Requirements		
<i>Operating System</i>	<i>Database</i>	
Win-98, Win-XP, Linux or any other higher version	Ms Access	

WEB BROWSER				
				
Google Chrome	Safari	Firefox	Opera	<u>Internet Explorer 8</u>

Specification of Web Browser:-

- 1.1 This describes the capabilities that will be provided by the software applications “WEB BROWSER”. Its purpose is to display the information on the website in a net and organized way; it also helps to navigate the web easily. These programs interpret code (**HTML**) and display information from **WWW**.
- 1.2 A web browser is a software application which enables a user to display and interact with text, images, videos, music and other information typically located on a web page at a website on the world or a local area network. Text or images can contain hyperlinks to the other webpages at the same or different website. Web browsers allow a user too quickly and easily access information provided on many web pages at many websites by traversing these links.
- 1.3 Web browsers required: Internet Explorer 8 or higher, Firefox, Google Chrome, Safari and Opera.

3. Project Manual

3.1 Definitions of problems

Problems with conventional system

(i) Lack of immediate retrievals: -The information is very difficult to retrieve and to find particular information like- E.g. - To find out about the patient's history, the user has to go through various registers. This results in inconvenience and wastage of time.

(ii) Lack of immediate information storage: - The information generated by various transactions takes time and efforts to be stored at right place.

(iii) Lack of prompt updating: - Various changes to information like patient details or immunization details of child are difficult to make as paper work is involved.

(iv) Error prone manual calculation: - Manual calculations are error prone and take a lot of time this may result in incorrect information. For example calculation of patient's bill based on various treatments.

(v) Preparation of accurate and prompt reports: - This becomes a difficult task as information is difficult to collect from various registers.

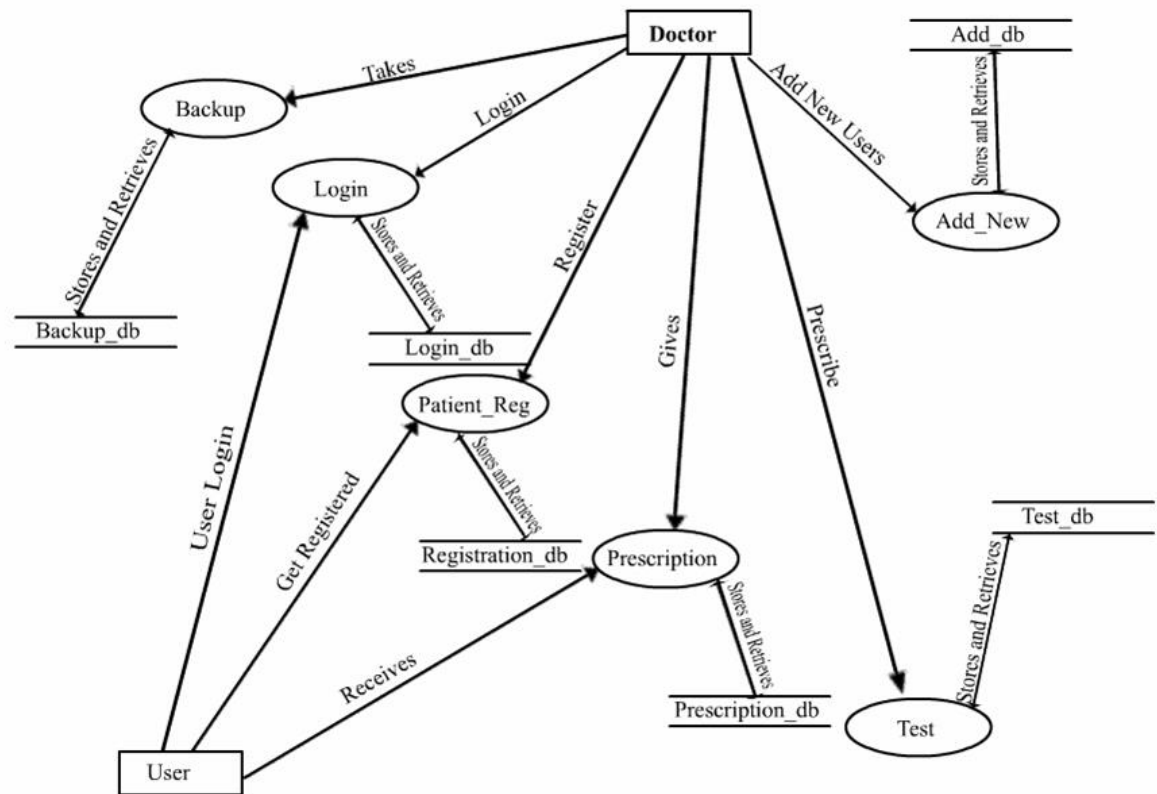

3.2 Alternative System

Online System:-

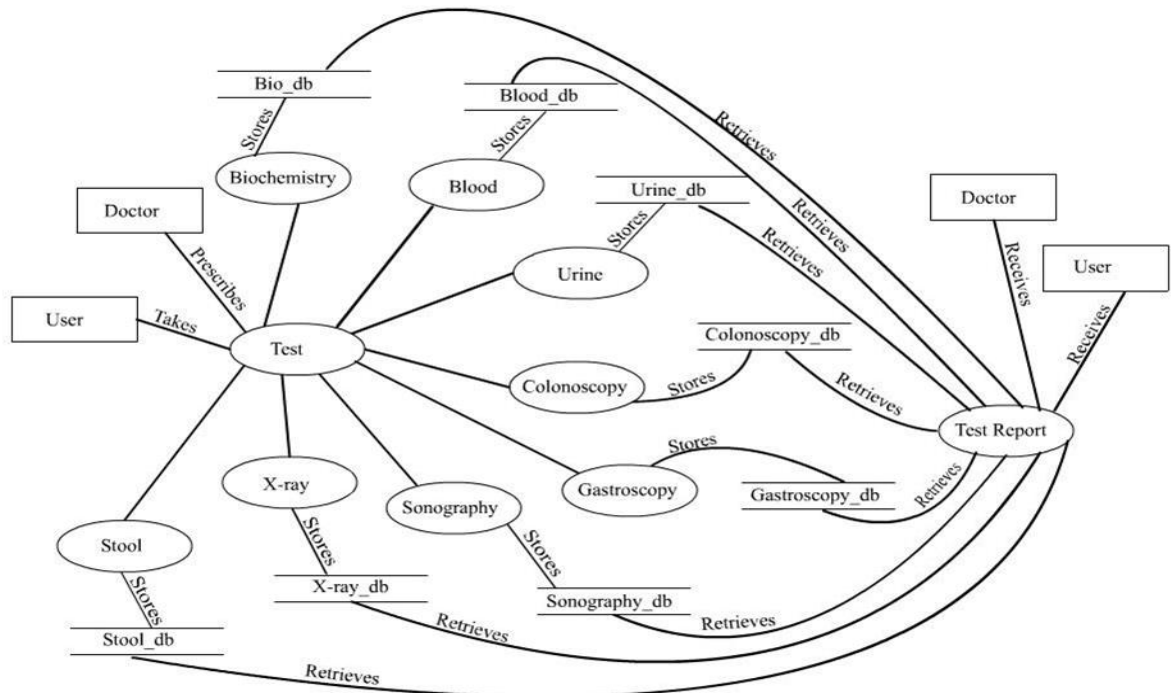

This system (HMS) provides online storage/ updation and retrieval facility. This system promises very less or no paper work and also provides help to Doctor and operational staff.

In this system everything is stored electronically so very less amount of paper work is required and information can be retrieved very easily without searching here and there into registers. This system is been discussed here.

Use –Case Diagram

Sequence Diagram

Activity Diagram

How to run the application:-

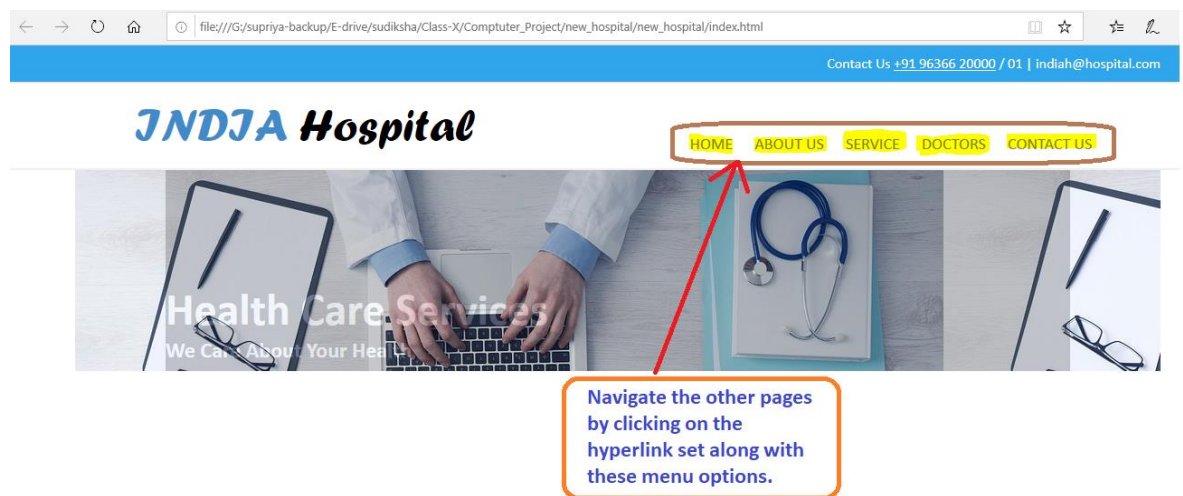

Unzip the below file:-

 new_hospital.zip	12-12-2019 15:51	WinRAR ZIP archive	529 KB
--	------------------	--------------------	--------

And extract all the following contents under the same zip file in a folder and open the home page, **index.html** through any of the web browsers:-

Name	Date modified	Type	Size
 css	13-12-2019 11:29	File folder	
 img	02-06-2017 17:49	File folder	
 about.html	13-12-2019 10:37	HTML File	3 KB
 contact.html	13-12-2019 10:25	HTML File	2 KB
 doctor.html	13-12-2019 11:29	HTML File	7 KB
 index.html	13-12-2019 10:30	HTML File	4 KB
 service.html	13-12-2019 10:23	HTML File	3 KB

Call and navigate all the other web pages from the Home page (index.html) menu (HOME, ABOUT US, SERVICE, DOCTORS, CONTACT US).

Similarly the same menu options are available at the header of all the pages other than Home page so that user can navigate from any to any of the other web pages as per their requirement.

How patient can take an appointment?

The facility of taking appointment for consulting doctor or undergoing pathological test is available in Home page as follows:-

Make an Appointment

First Name

Last Name

Email Id

Mobile No

-- Sex --

appointment date

SUBMIT

Fill all the related details of a patient and press SUBMIT button to take an appointment on a particular date.

HOME ABOUT US SERVICE DOCTORS CONTACT US

Welcome to **INDIA Hospital**

Best Medical & Health care Needs to Our Patients

The world perceives us as a low-cost Indian healthcare service provider; what we are engaged in is a passionate journey to establish ourselves as the lowest-cost, high-quality healthcare service provider in the world.

At INDIA Hospital, we are convinced that 'quality' and 'lowest cost' are not mutually exclusive when it comes to healthcare delivery. In fact, we are well on our way to demonstrate that we are not running our institution as just another number-only business, but are attractively placed to create an affordable, globally-benchmarked quality-driven healthcare services model.

We will commission hospitals, medical facilities, and clinics across the breadth of this country, getting closer to patients and taking the promise of quality affordable healthcare to the doorstep of the country's millions.
